

Diego Luca González Gauss

+1 (518) 350-3917 | luca.gonzalezgauss@gmail.com

Education

2023-2027	Harvard College <i>A.B. in Mathematics and Neuroscience (Computational)</i> <i>Language citation in Mandarin Chinese</i>	GPA: 3.89/4.00
2026-2027	Harvard University <i>A.M. in Statistics</i>	

Activities: Jane Street FOCUS & IN FOCUS, study abroad @ National Taiwan University

Societies: Computational Neuroscience Society (co-president), Undergraduate Quantitative Traders, Rugby, Powerlifting Club, Data Analytics Group

Experience

2026-present	Susquehanna International Group <i>Quant Trading Intern</i>
2026-present	Computational Cognitive Neuroscience Lab @ Kempner <i>Researcher</i>
2025	Theoretical Computer Science Group @ Tufts <i>Summer researcher</i>

Teaching

2026-present	MIT Department of Mathematics <i>Mentor, MIT PRIMES Circle</i>
• Spring 2026:	Naive set theory, ZFC, and modern axiomatic set theory
2025-present	Harvard University Department of Mathematics <i>Course assistant</i>
• Spring 2025, Spring 2026:	Prof. Denis Auroux's Studies in Real and Complex Analysis (MATH 55b)
• Fall 2025:	Prof. Denis Auroux's Studies in Algebra and Group Theory (MATH 55a)
2024-present	Harvard University Department of Statistics <i>Teaching fellow</i>
• Fall 2026:	Prof. Joe Blitzstein's Graduate Probability (STAT 210)
• Fall 2024, Fall 2025:	Prof. Joe Blitzstein's Introduction to Probability (STAT 110)

Research

2026	Online Targeted Subsampling for Stochastic Gradient-MCMC in HMMs with Enrico Yao-Bate and Haozhe Yang, with help from Alex Young <i>manuscript in preparation</i>
2026	Multidimensional endogenous imprecision in the number sense with Arthur Prat-Carrabin, supervised by Prof. Samuel Gershman <i>thesis in preparation</i>
2025	Bounding Fourier Growth of $\mathbb{F}_2$ Polynomials advised by Dale Jacobs and Prof. Vladimir Podolskii <i>presented at 2025 DIAMONDS symposium</i>

Funding

2025	Harvard College Research Program
2025	Tufts DIAMONDS REU site & NSF grant scholarship
2024	Fairbank Center for Chinese Studies summer language grant

Skills

-
- **Programming:** Python, various scientific computing and machine learning packages, L^AT_EX, MacOS
 - **Languages:** English, Spanish, Mandarin Chinese
